RESPONSE TO RESTRICTION REQUIREMENT

Director of the U.S. Patent and Trademark Office
Washington, D.C. 20231

Sir:

In reply to the Office Action mailed December 20, 2000, the Applicant hereby provisionally elects Group I, claims 8-15, drawn to a semiconductor device. This election is made with traverse.

It is respectfully submitted that the subject matter of all groups is sufficiently related that a thorough search for the subject matter of any one species would necessarily encompass a search for the subject matter of the remaining species. Thus, it is respectfully submitted that the search and examination of the entire application could be performed without serious burden. MPEP §803 clearly states that "If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on its merits, even though it includes claims to distinct or independent inventions." It is respectfully submitted that this policy should apply in the present application in order to avoid unnecessary delay and expense to the Applicant and duplicative examination by the Patent Office.

The Examiner is respectfully requested to reconsider and withdraw the Restriction Requirement and to examine all of the claims in this application.

Respectfully submitted,

James A. Oliff
